

ANNOUNCEMENT
On Deposits and Other Savings for Individuals

1. TERM DEPOSITS

During the discount period of 12/06/2019-30/09/2019, in case a customer month by month, based on his/her closing deposit base of the last day of the calendar month, continuously increases his/her deposit base at GRÁNIT Bank, the Bank pays extra interest of 0,50% annually for the deposit growth.*

*The calculation of the deposit growth and its connecting extra interest is according to the following method. Between 12/06/2019 and 30/09/2019 the aggregate amount of deposits tied up on the last day of the previous calendar month (as a benchmark) shall be deducted from the aggregate amount of deposits tied up on the last day of each calendar month, then regarding to this positive difference (deposit base growth) on a prorated basis, annually 0,50% gross extra interest is payed based on the number of passed days between the last day of the mounts and its connecting reference day, which is reduced by 15% of interest tax. In case of deposit base growth of July 2019 the reference day is 11/06/2019 instead of 31/05/2019. In order to determination of deposit base growth the foreign exchange deposits are changed to forint at officially listed average exchange rate of the GRÁNIT Bank on the last day of the month and referring day (if any of these days are not working day, the previous last working day is relevant). The extra interest is due to pay within 5 working days after last day of the month, on the customer's bank account.

The aggregated balance is the client's total day-end closing balance on all the GRÁNIT current accounts, on fixed terms, on saving accounts and on long-term saving accounts. The balance in other currencies accounts than HUF will be converted to HUF on the officially registered GRÁNIT Bank exchange rate on the reference day of the deposit.

Debits (such as credit card purchases, transfers, direct debits, charge charges, etc.) which happened on the same day but later than deposit and the amount disbursed from loan, reduce the daily balance of new money.

Those deposits which start on the reference day or later and the condition contains new money requirement reduce the daily balance of new money.

Do not hesitate to ask the help of our colleagues (in NetBanki, TeleBank with TPIN or personally in bank branch) to determine your new money, but note that after the specified amount, your daily debits (such as credit card purchases, transfers, direct debits, charge charges, etc.) reduce the daily balance of new money.
